TURKEY MAY SOON FOLLOW IN PEACE MOVE

BELGIAN TROOPS OCCUPY ROULERS

Important Railway Base in Flanders Has Been Taken From Germans.

SIXTH BATTLE RAGING

French, American, British and Belgian Armies Are Striking Vital Blows From Verdun to the Sea.

London, Oct. 1.—The Belgians have captured Roulers, the important German rail base in Flanders, the British are fighting their way through the streets of Cambrai, the French and Americans and other British armies are striking vital blows on various other fronts, and the whole German line in France, from Verdun to the sea, a distance of 250 miles, is rapidly crumbling in the greatest battle of the ages.

Striking east in their offensive between Ypres and Dixmude, the armies of King Albert surrounded and quickly forced Roulers to capitulate. This is a vital blow at the enemy. Roulers is a railway junction point which was highly important for the maintenance of his submarine bases at Ostend and Zeebrugge as well as his whole Belgian Flanders line.

Making the sixth battle front, the French launched an attack between the Vesle and the Aisne rivers, west of Rheims. A considerable advance was attained on a seven and a half mile front.

Yanks and Poilus Set Trap. Steady hammering by General Mangin's armies have already reclaimed more than half of the famous heights of the Chemin-des-Dames for the French. The Germans, retreating from these positions, are giving up important defenses before Laon. The new attack of General Berthelot between the Vesle and the Aisne adds to the difficulties of the enemy along the Aisne.

General Hunter Liggett's First army of Americans, after having consolidated its positions between the Meuse and the Argonne forest, again is irresistibly forging ahead.

The French west of the Argonne have practically reached Monthois, from which they look eastward across the valley of the Aire toward Grandpre. It appears that the Americans and French not only apparently are going to clear the whole Argonne of the boches, but are likely to trap a considerable part of the German armies who must retreat by way of the Aire valley.

The French are only seven miles from Vouziers, the German rail junction through which their lines in the Argonne and the region northeast of Verdun are fed. General Gouraud has advanced his whole line in the Champagne, taking several villages.

The Germans continue to throw their rapidly dwindling reserves into

KING PETER
Aged Serbian Monarch Coming Into His Own.

King Peter of Serbia, aged monarch, who has been a king without a country two years, is again coming into his own as a result of Bulgaria's debacle. Ferdinand's "hour of triumph" has drawn to a close and whether the czar of the Balkans will be allowed to retain his crown is a matter for the Allies to decide.

the battle opposite the Americans and French in the Champagne, but the advance of the Yanks and the Poilus is unceasing, despite the tremendous obstacles which the ingenuity of the enemy has devised. This battling onward the Americans have passed through miles of trenches and barbed wire and have the Kreinhilde line—the Germans' mightiest defenses—under range of their artillery.

British Make Great Advances. In Belgium, as on the Cambrai-St. Quentin line, where Americans are co-operating with distinguished success, the armies of Field Marshal Haig are sweeping onward.

The British made a big advance and captured Gheluwe, which puts them only two miles outside the Belgian railroad junction of Menin.

The German official communication admits withdrawals from their positions east of Dixmude and other points in Belgian Flanders, as well as from the Wytchaete salient.

AWAITS RESULTS OF GERMAN EXPEDITION TO SOFIA---HUNS ATTEMPT TO BLOCK YANKS

CALLS GERMAN BLUFF

Secretary Lansing Replies to Note Regarding Shotguns.

Should Berlin Execute Any American Soldier Suitable Reprisals Will Be Taken.

Washington, Oct. 1.—The United States government, in reply to Germany's threat to execute American prisoners of war found in possession of shotguns, gave notice that if Germany carried out any such threat suitable reprisals will be taken.

Secretary Lansing's reply made public declares that the use of shotguns is sanctioned by The Hague convention and that in comparison with other weapons now used in modern warfare the shotguns used by the American troops cannot be the subject of legitimate or reasonable protest.

"If the German government should carry out its threat in a single instance," says Secretary Lansing's reply, "it will be the right and duty of the United States to make such reprisals as will best protect the American forces and notice is hereby given of the intention of the government of the United States to take such reprisals."

Effect of Bulgarian Armistice on Turkey

BY WEBB MILLER
(Staff Correspondent, United Press)

Paris, Oct. 1.—The effect of the Bulgarian armistice on Austria and Turkey will probably soon be noticeable. The widest possibilities are opened by the elimination of Bulgaria. The most immediate results is expected by many to be a separate peace with Turkey due to the severance of its communications with Germany. The United Press has learned authoritatively that at present there will be no separate peace with Bulgaria and no political decisions affecting that country's future will be taken. Only military measures will follow the signing of the armistice.

Turkey Waiting for German Sofia Expedition

BY CLAPPER
(United Press Staff Correspondent)

Washington, Oct. 1.—Czar Ferdinand's exodus from Sofia is viewed as a virtual abdication in well informed diplomatic circles here today. Premier Malinoff, it is understood, forced Ferdinand to leave, fearing the German influence on him. Whether Ferdinand will be permitted to return depends on the attitude of Malinoff and his cabinet it is said. Malinoff is in absolute control of Bulgaria's foreign policy it is authoritatively stated. Turkey is now believed to be awaiting the result of the German expedition to Sofia before making definite peace movement.

Germans Trying to Check Americans

BY FRANK J. TAYLOR
(United Press Staff Correspondent)

With Americans west of Verdun, Oct. 1.—The Germans are frantically rushing reinforcements into the Argonne region in an effort to block the American advance. The enemy is apparently determined to make a permanent stand on the present line rather than fall back on the Brunhilde Stellung defense. Intense fighting continues with American infantry and artillery on the aggressive. Heavy German counter attacks are slightly interfering with the American advance. Their infantry in attacking are armed almost wholly with light machine guns. Their artillery is increasingly active and using great quantities of gas. Where these counter attacks occurred the doughboys retire from the outermost positions giving our artillery the opportunity to break up the boche formations and blast out the machine gun nests. Many of our field guns are so near the front line they fire point blank at the enemy.

Cabinet Officer Asserts German Dream of Middle-Eastern Empire Has Vanished.

London, Oct. 1.—That a peace offer from Turkey is imminent is the strong belief existing here.

Andrew Bonar Law, chancellor of the exchequer, speaking in the guild hall, said the signing of the Bulgarian armistice means "that communication between Germany and the east in that direction has been cut off and that the Germans' dream of a German middle-eastern empire has gone forever."

Control of the Bulgarian railways, the chancellor pointed out, gives control of Bulgaria.

Alluding to the Palestine campaign, Mr. Bonar Law said:

"The magnificent success of our armies in Palestine has resulted in the extinction of the greater part of the Turkish army, but something more is going to follow."

BERLIN CABINET CHIEFS RESIGN

Chancellor von Hertling and Foreign Minister von Hintze Step Down.

PRESS IS HYSTERICAL

Possibility That Germany Might Be Beaten Had Never Before Been Entertained by Papers or People.

Amsterdam, Oct. 1.—The Kaiser has accepted the resignations of Imperial Chancellor von Hertling and Foreign Minister von Hintze, it has been officially announced in Berlin.

Emperor William has addressed the following to Count von Hertling:

"Your Excellency has reported to me that you no longer find yourself in a position to remain at the head of the government. I will not hide from myself your reasons and must with heavy heart deny myself your further co-operation."

"You are certain of the thanks of the Fatherland for the sacrifices you made in undertaking the chancellor's office in grave times and for the services you rendered. I desire that the German people shall co-operate more effectively than hitherto in deciding the fate of the Fatherland."

"It is, therefore, my will that the men who have borne up by the people's trust shall in a wide extent co-operate in the duties and duties of government. I beg of you to terminate your work by continuing to conduct the government's business and preparing the way for measures desired by me until I have found a successor for you."

The German press hysterically emphasized that the needs for cool heads never was greater than now. The possibility never before entertained or visualized is beginning to dawn on the people that Germany may lose the war and the suddenness of this realization has had a bewildering effect on them.

The Zeitung am Mittag approves as wholly appropriate to the occasion the sensational editorial printed in Vorwaerts last week, dealing with what would happen should an enemy succeed in invading the fatherland. It makes an assertion remarkable for this newspaper, saying:

"Our government throughout this terrible war has sedulously avoided hinting at this, and the other possibility, namely, that the war may be lost if everybody and everything are not united in the utmost effort."

"The government has thus itself contributed to veiling the real gravity of our position during these four years of war," the newspaper continues. "It has preferred to lead the nation in blinkers past the abyss of danger to our national life."

Rhenish Paper Shudders.

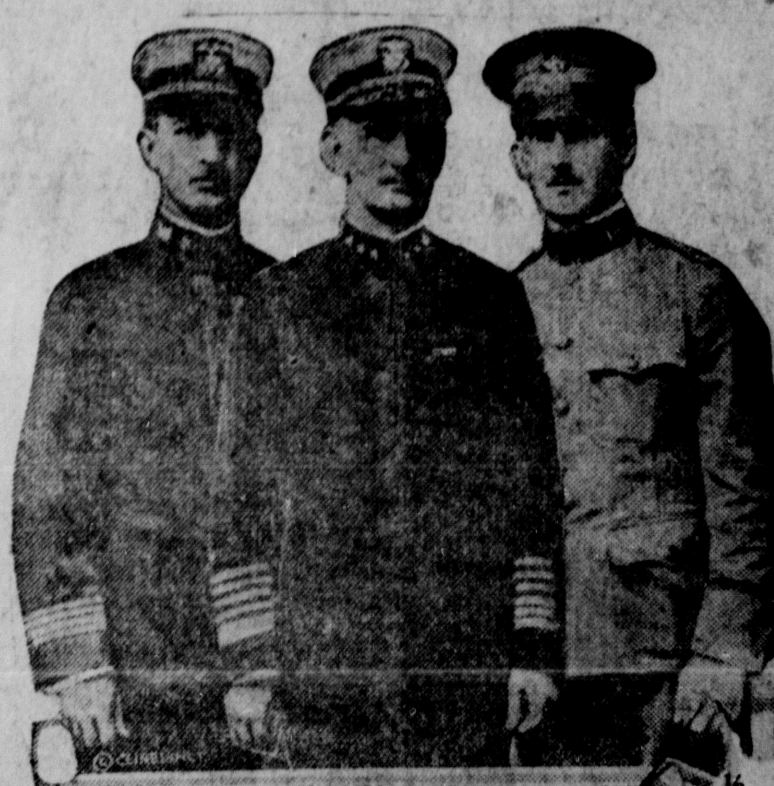

The Rhenish Westphalia Gazette shudderingly contemplates the Bulgarian situation, "the last and highest wave," and suspects that the Bulgarians, after having got the Dobrudja region of Roumania have no further use for Germany.

American Labor Leader Speaking in London

Samuel Gompers, president of the American Federation of Labor, has had a great reception in England, where this photograph of him making a speech to an outdoor meeting was taken. He did much to hold the British leaders in line for the war.

WOMAN'S REALM

NURSES SURVEY

Mrs. R. R. Gould Chairman of Committee to Canvass City and County For Nurses

Mrs. R. R. Gould has been made chairman of a local committee to make a canvass of the city and county to secure and submit to Washington, a survey of the nursing resources.

A house to house canvass of the city is now being made with an aim to secure the names of all women having had experience in any kind of nursing. Graduation from a school or hospital in nursing is not required.

The public is urged to co-operate in this work and the ladies be prepared to furnish information to those who call at the different homes. Questionnaires are to be filled out and the time in which to make the canvass and complete this work is at best short.

A meeting of the different chairmen of the county, designated to make this canvass and the city chairmen, will meet at the call of Mrs. Gould at the Chamber of Commerce rooms Saturday, Oct. 5th at 1:15 P. M.

REBEKAH ANNIVERSARY

Celebrated Monday Evening, 67th Anniversary of the Order Made Memorable Meeting

The Rebekah anniversary, 67th one of the order, was celebrated on Monday evening at the lodge hall and Odd Fellows were honored guests of the ladies.

The program included literary and musical numbers and special ceremonies. O. J. Bouma was the speaker of the evening. Light refreshments were served.

PATRIOTIC BRAINERD GIRL

Miss Julia Wilson, Daughter of Mr. and Mrs. J. A. Wilson, Entered Hospital Nurse Service

Miss Julia Wilson, who has been enjoying a two weeks' visit with her parents, Mr. and Mrs. J. A. Wilson, left this morning for St. Luke's hospital in St. Paul where she will join a unit of five graduate, registered nurses which will leave tonight for active service.

Miss Wilson is 100 per cent Brainerd having been born and reared in this city, receiving her academic education in the local schools graduating from the high school in the class of 1914. She taught school one year in Nisswa, then entered St. Luke's hospital in St. Paul, graduating from that institution in May of this year and receiving her certificate as a registered nurse in August.

It is expected that the unit will be sent to France after four months training in this country.

HIGH SCHOOL MUSIC

Orchestra, Boys and Girls Glee Club, General Chorus Organized

High school music is now well under way. The orchestra, with a large membership, has been organized. In addition to the general chorus are the Boys' and Girls' Glee clubs to which there has been a ready response. Officers of the Girls' Glee Club are:

President—Alice Anderson.
Vice President—Irma Hanke.
Secretary—Ethel Thomas.
Treasurer—Mildred O'Brien.
Librarian—Dorothy Carmichael.

Presbyterian Social Club

The Presbyterian Social club will have its first meeting of the fall at the home of Mr. and Mrs. George Hess, West Brainerd, on Friday evening. This organization is for the purpose of promoting the social life of the church and for the purpose of getting acquainted.

A program is being arranged for the occasion. After this lunch will be served and a general good wholesome time enjoyed. A cordial invitation is extended to all members of the church and congregation. Further notice of the program will be given later.

Methodist Aid

Mrs. Alma Thompson and Mrs. A. T. Fisher will entertain the Methodist Ladies' Aid on Wednesday afternoon. The new officers will have charge of the meeting. The year book for 1918-1919 will be distributed.

Guild Meeting

The Woman's Guild of St. Paul's Episcopal church will hold their business meeting Wednesday afternoon at 2:30 o'clock at the home of Mrs. J. R. Smith, 423 North Broadway.

First Baptist Aid

The Ladies' Aid society of the First Baptist church will meet Wednesday afternoon with Mrs. Henry Olson, 811 Fir street. Ladies are asked to come prepared to sew.

Wife's Responsibility.

At the Best Today

Constance Talmadge, Select Star, now in California, where she is working during the winter months, recently paid a visit to the Hollywood studios and hobnobbed for several hours with numerous old friends.

She was greeted with acclaim by Douglas Fairbanks and his director, Alan Dwan, while Frank E. Woods, supervisor of productions, welcomed her with open arms. Albert Cowles, a member of the scenario department, and Harvey Thew, who wrote the scenario for "The Shuttle" with Margaret Turnbull, were also among the welcoming party.

Miss Talmadge visited the studio where Mary Pickford was at work, and not only spent a few minutes chatting with her, but also renewed acquaintance with Marshall Neilan, her director.

"One of the strangest things I saw on visiting Hollywood," declared Miss Talmadge, "was the skeleton of the great 'Intolerance' set about which cluster so many memories of the days when I played the Mountain Girl. Literally, Babylon has not yet fallen. It stands there, colossal, but its glory and rich color are missing like people who once gave it life. It made me feel sad for a time."

Constance Talmadge will appear here in "The Shuttle," at the Best theatre today. It was adapted from the novel of the same name by Frances Hodgson Burnett, directed by Rollin Sturgeon and is being distributed by Select Pictures.

At the Best Tomorrow

"Blue Blazes Rawden," with Wm. S. Hart in the title role, will be the attraction at the Best theatre on Wednesday. This will be the fourth appearance of the famous Ince star in Arteract pictures, and presents him in the role of a hardy lumberjack.

In the frozen wilds of the Canadian northwest. In place of the familiar western outfit is a figure clad in blanket coat and fur, and the hard-riding western types are replaced by a renegade Englishman to separate the timber men from their hard-earned wages.

The entire Hart company was transported to the northern woods to film the exteriors for "Blue Blazes Rawden," and suffered considerable inconvenience from the cold weather, blizzards sometimes confining the actors to the shelter of the rough shacks for days at a time.

According to Hart, who directed the production in addition to playing the title role, the absence of horses was not relished by the men who practically live in the saddle in California, and who performed the hard work of dragging sleighs by hand along the trails.

"Blue Blazes Rawden" was written for Hart by J. G. Hawks and is unique in that there is no love story in the play.

At the Best Thursday

Count Leo Tolstoy, the famous Russian philosopher, author of "Resurrection," was one of the ablest writers of his day. In his arraignment of social, economic and political conditions which existed among the Russian peoples during the last half century, he was as fearless as he was daring in his advocacy of the principles of liberty, freedom, justice and the education of the masses.

In writing "Resurrection," his purpose was to expose the degrading conditions by which fallen peasant

women became social outcasts, without hope of redemption, while the noblemen responsible for their downfall were accorded the highest social and political honors.

These conditions are the basic features of the great Paramount picture, "Resurrection," starring Pauline Frederick, which will be seen at the Best theatre Thursday. In her portrayal of the role of Katusha, a beautiful Gypsy Russian girl, who becomes the plaything of a Prince and later falls to the lowest depths, Miss Frederick has a role which affords her a wide scope for the display of her dramatic and emotional talents.

Miss Frederick is supported by many capable players, while the photographic effects in every scene of the picture are of the best quality. The photoplay is in no sense inferior in these and other respects to "La Tosca," which was recently displayed here with unusual success.

NO FITTED LINING

Straight-Line, One-Piece Frock for Fall Wear.

Plan of Construction of This Dress Greatly Simplifies the Work of the Home Dressmaker.

Paris designers have recommended and introduced the straight-line one-piece frock of wool fabric, made without lining, and American designers have accepted and approved the garment. Very attractive frocks are fashioned on these lines for fall, employing serge or wool jersey, or if for very early fall wear, satin or some of the heavy corded silks or silk crepes.

Dresses of this type have much to commend them. They may be slipped on very quickly—in fact, some of the Paris designers have christened them "dress-in-a-hurry" frocks. The elimination of a fitted lining simplifies the work of the home dressmaker.

The sketch illustrates a very graceful smart frock that may be made without lining. Either navy serge or satin may be used for the frock proper, with girdle of self-fabric or of black velvet, and vest and collar of white satin or heavy white crepe. This collar may be worn open, or, as the small sketch indicates, it may be buttoned over so that the throat is covered and protected.

For the early fall days there is none smarter than a dress of this type. A handsome fur scarf, a chic little hat and correct gloves and shoes complete the picture.

The back of the dress is entirely plain, scant gathers holding it in at the waistline. The skirt should not measure more than a yard and a half or a yard and three-quarters at the most.

The hat shown in the sketch has its crown covered with black velvet, and the brim is fashioned of overlapping sections of heavy navy grosgrain ribbon. The hats for fall display many feather "fancies" in trimmings, and short, curled ostrich plumes or tips will be strongly featured on hats of

One-Piece Liningless Dress.

medium or large size. The small tailored affairs, designed for wear with suits or with one-piece tailored dresses, are rather small.

Many millinery dealers made an earnest effort this year to discourage the wearing of velvet hats in August, and many handsome satin and faille silk hats were offered as a substitute, but women appear to have firmly placed their seal of approval upon fur scarfs and velvet hats, and their insistent demand for them compels milliners to supply the demand.

The Tailor Suit.

The tailor suit, which was rather neglected last winter, has taken on a new lease of life. When as now one is forced to travel with limited luggage there is no more practical costume. A fresh blouse easily changes the appearance of the frock and brightens it in the twinkling of an eye. For tall, slender women this season's ubiquitous striped and checked weaves are smart. She, however, who fears to look about should cling to plain black, navy and elephant gray materials.

About Ladies' Hats.

Use wheat (whisper!)—but only artificial wheat!) to trim your late summer hat—either above or under the brim. All-chenille hats of brilliant hues to match the silk sweater are smart for sport wear. Sport hats of soft, crushable felt in gay colors are the latest importations from Paris, with all velvet hats of high crown and broad brim for formal wear leading the fashion parade.

CAN BY ANY METHOD YOU CAN; BUT CAN, CAN, CAN.

HILE a regular canning outfit is an advantage it is not necessary, for any clothes boiler with a wooden rack made to fit the bottom, of strips of wood or lath will answer every purpose.

The important thing in canning is to have complete sterilization of the product; this is insured by good rubbers and a perfect seal.

A kettle, pail or boiler of any kind which will take a few jars deep enough to cover or come to the neck of the jar with water and a good tight cover for the boiler is all that is needed.

Sterilize the cans by placing them in cold water, tops as well, and bring to the boiling point. Dip the rubbers into the hot water before adjusting them, then with the filled jars, if a Mason, screw it tight, then loosen one-quarter way back. If the covers are screwed too tight, the rubber is forced out of place or the jar may crack. If too loose the water or liquid will be drawn from the can.

The blanching of many fruits and all vegetables is an important part of the preparation. Blanching is meant the dipping into hot water and letting the fruit or vegetable stand a certain time, then plunging into cold water. Blanching shrinks, drives out the gases in the tissues and brings the color to the surface making a more attractive product. The age and tenderness of the product determines the length of time for blanching. If apples are to be canned, peel, quarter and dip for two minutes (if quickly cooked apples are used), otherwise five minutes, then plunge into cold water and drain and pack into the jars. Fill the jars with hot water, seal as mentioned above and cook twenty minutes in the hot water bath. Seal tightly as soon as removed from the boiler.

Peaches, pears and plums may all be cooked in the hot water for twenty minutes. The peaches are blanched one minute; the plums or berries are not blanched.

RABBIS STRIKE AT CHICAGO

Forty Jewish Teachers Seek 20 Per Cent Increase in Pay.

Chicago, Oct. 1.—Something new in strikes, namely the walkout of forty Jewish rabbis, developed in Chicago. These rabbis teach in the Talmud Torah schools where children are instructed in the ancient tongue of their fathers.

The strikers seek a 20 per cent advance in pay.

WILSON IS FOR SUFFRAGE AS WIN WAR MEASURE

Washington, Oct. 1.—Shortly and sharply President Wilson has called upon the United States senate to pass a constitutional amendment granting women full and equal suffrage with men. As "commander-in-chief of the army and navy," he declared suffrage to be "virtually essential to the successful prosecution of the great war of humanity." By granting it the president declared it his duty to "ask you to remove every obstacle that stands in the way of winning the war."

FAIR SAILING

It is easy to get a wrong impression of business in the United States. Almost every business concern, from railroad and steel corporation to the village grocery, feels war's restrictions. Some supplies are cut off, others are under government regulation, employees are conscripted.

Scarcely any business concern escapes; and there is much uncertainty as to where and how war's restrictions will fall next.

But in spite of all that it is probably easier on the whole to do business in the United States than it ever was before. In the five months ending with May the number of business failures in the country was only half that for the corresponding period in 1915, and the liabilities of failed concerns were much less than half. Fewest failures in proportion to the number of concerns and the volume of business must mean, on the whole, fair sailing—brisk trade, good collections, easy credit.

Nobody knows what is ahead. Everybody but an idiot knows it will not always be fair sailing. At least restrictions will increase, taxes will multiply. Always it is only a question of time when the barometer falls. Merely as a matter of the most selfish prudence the greatest possible amount of present profits should go into reserve, and the reserve should go into government securities. All past experience proves that there surely is coming a time when every present subscription to a Liberty Bond or a War Savings Certificate will look like a life preserver to the man who has fallen overboard.—Saturday Evening Post.

THE BOOK DID IT.

When a politician writes a book it puts him on record and he can't blame the stenographer for not reporting him correctly as did Senator LaFollette in his notorious St. Paul ebullition.

The Detroit Record explains the situation of Charles A. Lindbergh, former congressman of the sixth district and late candidate of the non-partisans whom somebody had slated for a federal position:

Charles A. Lindbergh, the infamous un-American pup whom A. C. Townley tried to foist off on the people of Minnesota as governor, will not be appointed to a federal position. The national war board was given a copy of Lindbergh's infamous anti-war book, "Why is Your Country at War," and that was all of Lindbergh the board wanted.

HIDING BEHIND SKIRTS

Registrants getting married and using wives' skirts to hide behind on the plea of dependency and thus seeking to evade war service will have little consolation offered them when they read this official provision covering recent cases:

"The fact of dependency resulting from the marriage of a registrant of the class of September, 1918, who has married since the date of the introduction in congress of the act requiring his registration, to-wit, August 5, 1918, will be disregarded as a ground for deferred classification."

A woman's skirts should not be used in this case to hide a man from service with Old Glory.

ARMY WILL DISBAND

Bulgarian and Allied Peace Delegates
 at Saloniki Did Not Discuss
 Political Questions in
 Conference.

London, Oct. 1.—With Bulgaria definitely out of the war, Turkey virtually cut off from communication with her allies and her armies in Palestine almost wiped out, likely soon will be forced to sue for peace.

Seeing defeat staring her in the face through the swift progress of the Serbian, Italian, British, Greek and French troops in the reclaiming of Serbia and the invasion of Bulgarian territory the Bulgars begged for an armistice, reserving to themselves no conditions.

The territory now held by King Ferdinand's men is to be evacuated; the Bulgarian army is to be immediately demobilized and all means of transportation inside the kingdom, even along the Danube, is to be given over into Allied hands.

Back Door Thrown Open.

Thus, in addition to the isolation of Turkey, the back door to a direct invasion of Austria-Hungary is flung wide open to the Allies and doubtless the time is not far distant when advantage to the full will be taken of the new avenue through which the enemy can be reached. With the debacle in Serbia and Bulgaria complete, the Austro-Hungarians in Albania soon will be put to the test, and when their evacuation to their own borders is accomplished the Allies will have welded an iron semicircle about the Central powers from the Black sea to the North sea.

Hostilities Cease.

London, Oct. 1.—The Allies and Bulgarians ceased hostilities at noon Monday it has been learned from an authoritative source here.

The Serbian legation confirms Bulgaria's unconditional surrender.

The terms laid down by the Allies were unofficially reported to be as follows:

Surrender of all Bulgarian forces outside Bulgarian territory.

Demobilization of the Bulgarian army within Bulgaria.

Complete breaking of relations with Germany, Austria and Turkey.

Free access of Allied forces to Bulgarian territory.

Paris, Oct. 1.—Bulgaria is out of the war. Having accepted all of the military terms imposed by the Allies, she has ceased to be an active participant.

These facts became known when it was officially announced that the armistice had been signed.

It is learned authoritatively that at Saloniki Bulgarian and Allied representatives discussed only the condition of Bulgaria's disarmament, and not political questions.

MOVE ON CONSTANTINOPE

Bulgars May Join in Possible Allied Offensive.

Washington, Oct. 1.—Bulgaria will be friendly to any Allied moves against Turkey and will be practically on the side of the Allies for the remainder of the war, Bulgarian Minister Panaretoff said.

Turkey will be forced to sue for peace or meet an Allied attack on Constantinople, he said. An Allied advance over the Sofia railway toward Adrianople can be expected at any time, he declared.

It is even hinted that over a million Bulgarian troops may turn on Turkey and join the Allied attack.

UNITS BECOME SEPARATED

Considerable Confusion Reigns Behind the German Lines.

With the American Fronts Northwest of Verdun, Oct. 1.—Terrific congestion and confusion has prevailed at various points behind the German lines, according to information received by American officers. In one instance a German division became divided, half going in the direction of Flanders and the other half, badly disorganized and minus its staff, being thrown into the battle of Argonne.

New Japanese Premier.

Washington, Oct. 1.—Koi Hara, one of the leaders of the great Seiyu Kai party, has been appointed premier of the new Japanese cabinet, succeeding the Terauchi administration.

Iowa Completes Its Quota.

Chicago, Oct. 1.—The honor of being the first state to complete its quota of the Fourth Liberty Loan was claimed for Iowa when unofficial reports from each of her 99 counties indicated that the allotment of \$147,000,000 had been subscribed. Alaska was the first territory to receive subscriptions for its total quota. One organization, the Alaska Packers' association, wired Secretary McAdoo that it had signed up for \$1,350,000 worth of bonds, the quota of the territory.

BIG PROBLEM IS OVERCOME

Peace Proposals of Central Powers
 Since War Began Analyzed by Congressmen Fess—Reed's Protest
 Against District Wage Commission.

By ARTHUR W. DUNN.

Washington.—About the time our big ship program was outlined there appeared in various publications statements showing that no matter how many ships were built they would be useless because they could not be manned. Quite a number of people were disturbed by these assertions and no doubt saw difficulties in securing trained officers and seamen to man and operate the ships. But the difficulties were like all others that have beset this country since it entered the war; they were very great, but they could be overcome. When the ships which the government is building are completed and ready for service they will be officered and manned. There are men being educated in seafaring work who can take these ships and operate them. It is the same with serving the ships as in all other matters pertaining to the war. Where a necessity exists means are taken to meet it. How absurd it would be to build a lot of ships and allow them to lie idle in our harbors for want of man power. America is not going to do anything like that.

Congressman Fess of Ohio, who keeps a better compilation of war literature than any other man in congress, gave the house interesting information concerning peace proposals. There are more than 100 documents on the subject of peace since this war began, he said, which express efforts for peace, together with the answers. One of the interesting features of the peace proposals, said Fess, comparing the early ones with those we have had recently, is the changed tone. "The arrogance and haughty superiority," declared the Ohio congressman, "so apparent at the beginning, which used the phraseology of 'our iron will' and 'our mailed fist' has all ceased, and now the language is softer and almost touches the plane of the suppliant if carefully scrutinized. Just a few days ago the statements of Doctor Solf, Prince Max, Count Czernin and Count Burian were very mild, with the suggestion that the war ought to close, and a deep desire to find a way to save the face of German militarism, and an evident desire to open a way to convince the allies that the central powers would close the war at once without any negotiation."

Mr. Fess did not include the last proposal, which was far more soft than any that has gone before. He said the various proposals for peace offered an opportunity to study the psychology of the Germans. They show that the war is going against them. The next peace offer is likely to be more humble than any that has preceded it.

During the discussion of a bill in the senate which proposed a commission to determine the wages of women and minors under eighteen years in the District of Columbia, Senator Reed of Missouri said: "It may be that this legislation will go through notwithstanding any protest. It is of that class of legislation which repudiates the right of an American citizen to take care of himself. It is based upon the idea that the human family must be constantly in leading strings and under tutelage and protection. It assumes that an American citizen has not sufficient sense to make his own bargains, but that there are some other American citizens who can with absolute infallibility make contracts for him. It is based upon a principle of intellectual serfdom. Its underlying thought is that individual rights and responsibilities should be merged into general governmental supervision. If we have this sort of legislation long enough we will not have left in this world anything but a few political bosses and many industrial slaves."

And the bill passed, as Reed predicted.

All the "big guys" on the ways and means committee who took anywhere from one hour to five or six in discussing the revenue bill availed themselves of the privilege of revising their remarks. Chairman Kitchin, Congressman Forney of Michigan, Moore of Pennsylvania, Longworth of Ohio, Hull of Tennessee and Green of Iowa all had a good deal to say about the provisions of the bill and went over their speeches before they were printed. The necessity for this was that where so many figures are mentioned, the reporter is apt to make a mistake, and one mistake may entirely destroy the effect of an argument.

It has been a long time since anything has been heard of the Alaska government railroad, but Congressman Johnson of Washington, speaking of it in the house one day, remarked that "the government railroad itself and the building operations had greatly shriveled, with two of the commissioners out and the railroad building plan going to pieces."

To Resist the Attack

of the germs of many diseases such as Grip, Malaria, means for all of us—fight or die. These germs are everywhere in the air we breathe. The odds are in favor of the germs, if the liver is inactive and the blood impure.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood, so that there will be no "weak spots," or soil for germ-growth.

STRAIN ALL EFFORTS TO GO OVER THE TOP

Brainerd Quota of \$235,000 Will be Gained by a Narrow Margin in Opinion of Carl Zapffe

SOLICITORS NOW CANVASSING

Fifth Ward had Largest Number of Citizens Who Paid No Attention to Allotment Notices

If Brainerd goes over the top in the Fourth Liberty Loan and the amount estimated it should raise, namely, \$235,000 is realized, it will be by a narrow margin in the opinion of Carl Zapffe, who is busy today compiling final figures on the drive.

The Liberty Loan offices of the city hall were closed last night and for two days, the public has been given an opportunity to call and sign up for their allotments. It is noticeable that of those against whom allotments were made, only 14 per cent failed to appear. This 14 per cent represents approximately \$15,000. A number of notices were sent out to parties without allotments, but giving them the opportunity of calling at headquarters in the city hall and make their pledges. This, with the number of those who failed to respond to their allotment notices combined, is approximately about 22 per cent.

It is noticeable that the Fifth ward had the largest number who did not appear in response to their allotment notices. Solicitors began today the work of calling upon delinquents in the city, to make inquiry why they have not co-operated in the plan of Liberty Bond sales and either call at the city hall in person or send a representative. They will be given opportunity to subscribe to Liberty Loan Bonds through these solicitors.

Reports are coming in slowly from outside districts and it is impossible at this time to give an estimate as to the amount subscribed in the county, or a forecast as to whether or not Crow Wing county went over the top.

The amount estimated to be raised in Brainerd was \$235,000 and of this the shops were expected to raise \$100,000. Every loyal person in the city is urged to cooperate with the committee and if they have failed to take their allotment, to do so at once, in order that there may be no doubt about Crow Wing county's going over the top.

The 4-Minute-4 Men completed their part of the drive last night when Judge Walter F. Wieland gave a strong able address, at the Best

theatre, urging the public to aid the boys over there and to give until it hurts. The 4-Minute-4 Men have been on the job every night for a week and their work has been of great help in bringing the message of the government home to the people. Chairman Zapffe today expressed his keen appreciation of their work.

Every employee on the Minnesota & International railway subscribed for a bond, 100 per cent over their allotment.

DEATH OF FARMER

Albert Kamrath, Oak Lawn Resident, Died Monday Noon From Complication of Diseases

Albert Kamrath, a well known farmer of Oak Lawn township, age 60 years, died Monday noon of a complication of diseases at his home. He was born in Fransfelde, Germany, in the year 1858.

He came to America in 1880 and settled in Fairfax, Minn., and 19 years ago moved to Brainerd and has farmed here since then. He was married to Miss Emma Kamrath of Fairfax in 1885.

Six children were born to them, being Mrs. F. W. Frost, Herman who died in infancy, Marie, John, Emma and Edna, all of Brainerd, who with his wife and one granddaughter live to mourn his death.

He also leaves a sister, Mrs. Augusta Schoenfelder of Steenville, Mich., a brother Herman Kamrath of Canby.

Funeral arrangements were completed today and the funeral will be held Wednesday afternoon at 2 o'clock from the farm home on East Oak street road and at 3 o'clock from the Lutheran Zion's church, corner Main and Broadway, Rev. P. G. Mueller officiating.

BRAINERD-OSAKIS-SISSETON CUT-OFF

Osakis Commercial Club Takes up Matter of Organizing Blazing and Registering Trail

THE ROUTE SELECTED IS GIVEN

Starts at Brainerd, Goes by Way of Little Falls and Osakis to Sisseton, S. D.

The Osakis Review gives prominence to the work of the Osakis Commercial club which has taken up the matter of organizing, blazing and registering an automobile route connecting Brainerd, Fort Ripley, Belle Prairie, Little Falls, Swanville, Long Prairie, Round Prairie, Osakis, Nelson, Alexandria, Forada, Glenwood, Starbuck, Cyrus, Morris, Alberta, Chokio, Johnson, Graceville, Barry, Beardsley, Browns Valley and Sisseton, S. D.

The new trail will be known as the Brainerd-Osakis-Sisseton cut-off. A meeting of 160 boosters was held at Osakis with the approval of the State Highway Department which has completed the work of laying out a trunk line system of roads connecting every part of the state.

A very urgent call upon all the people of Brainerd to donate to the Red Cross one set of linen to the "Linen Shower" which has been lauded and of firm texture, this will assist in caring for our wounded boys in the French hospitals. The allotment for Brainerd is:

180 bath towels, size 19 inches by 38 inches; 580 hand towels, 18x30; 90 sheets, size 64x102, 2 inch hem at top and 1 inch hem at bottom; 250 handkerchiefs, size 18x18; 40 napkins, size 14x14.

MERRITT MINERS BUY LIBERTY BONDS

Following the publicity given a group of Finn miners at the Merritt mine in the Trommald district, who refused to buy bonds or state the reason for so refusing, a corps of solicitors including Franklin W. Merritt of Minneapolis, former Representative Edward R. Syverson of Ironton and many loyal Finns from all parts of the county used their powers of suasion on the recalcitrant Finns and the subscriptions were made and the Merritt mine entered the column of bond buyers.

The whole Trommald district went over the top with a resounding whoop

ASSOCIATION BRAINERD MINISTERS TO MEET

First Meeting of Fall Months at the Y. M. C. A. Monday Morning at 10:30 O'Clock

DISCUSS FUEL CONSERVATION

Many Churches Hard Hit by War in Loss of Efficient Workers in All Branches

The Brainerd Ministerial Association will hold its first meeting of the fall at the Y. M. C. A. building on next Monday morning at 10:30 o'clock. These meetings will be continued weekly through the fall and winter. The association is a general clearing house for the ministers of Brainerd where church plans and programs are discussed and announced and where most of the vital matters for the welfare of the churches cooperating have been planned.

The Association meetings are open for all evangelical ministers and a cordial invitation is extended them to join and have a part in whatever pertains to churchly things.

Among the matters to come under discussion at this first meeting will be the question of the conservation of wood and coal during this winter. Some plans have been discussed already, among them being the holding of union meetings for the evening service. This is only tentative however and will be considered at the meeting on Monday morning. Every minister in town is interested in this and all are urged to be present and give his opinion.

Most of the churches have been hard hit by the war. They have suffered great losses among their most efficient workers. Choirs, Sunday schools, and young people's organizations have seen their numbers dwindle. Now they are calling upon everyone left to bear a double load and for every man to do two men's part. It is the challenge of the double load and must be carried if the churches are to fulfill the request of Pres. Wilson that they be kept up to the highest efficiency during the progress of the war. The churches have done yeoman service in holding up the hands of the president during this present crisis and the appreciation of the government is great for this co-operation. The Association will do what it can to be of service during the whole year.

Jerome R. Spiering, former superintendent of the Brainerd Gas & Electric Co., is in Co. E., 27th Platoon, 56th Engineers in France. In writing to A. B. Willing of Brainerd he related meeting his brother, young Spiering, whom he had not seen since the latter had entered military service. It was about a 2,000,000 to 1 chance to run across him in Europe.

LITTLE FALLS OVER TOP

In First Two Hours of the Campaign \$100,000 Was Subscribed and at 2 P. M. \$175,000 Reached

(Little Falls Transcript)

Little Falls not only went over the top Saturday in the Fourth Liberty Loan but reached its objective and went right on towards Berlin. In the first two hours of the campaign the \$100,000 mark was passed and at about 2 o'clock in the afternoon the quota of \$175,000 was reached and when the returns were counted after 9 o'clock, the city had chalked \$183,000 to its credit.

Morrison county was one of the first three counties counted which totaled more than its quota. In the city, \$69,000 additional may be counted, as Chairman Millard has the promise of this much more, which he says is as good as gold.

CIVIL SERVICE EXAM.

At Brainerd October 9 for Typewriting, Etc., Minor Speed Required

The United States Civil Service Commission announces an open competitive examination for minor stenographer-typewriter, minor stenographer, and minor typewriter, for both men and women, at the Brainerd post office, on October 9. Vacancies in the Departmental Service, Washington, D. C., will be filled from this examination.

The subjects in which the applicants will be examined are the same as those for the regular stenographer-typewriter examination but the subject matter is less advanced, a lesser rate of speed is required in writing on the typewriter and in writing stenographic notes; the examination is what its name implies, a much simpler form of the same kind of examination. Application may be made for either the stenography or typewriting or both. For particulars, application blanks, etc., see or write J. J. Nolan, Secretary U. S. Civil Service Board, postoffice, Brainerd, Minn.

ROLL OF HONOR

Jerome R. Spiering, former superintendent of the Brainerd Gas & Electric Co., is in Co. E., 27th Platoon, 56th Engineers in France. In writing to A. B. Willing of Brainerd he related meeting his brother, young Spiering, whom he had not seen since the latter had entered military service. It was about a 2,000,000 to 1 chance to run across him in Europe.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

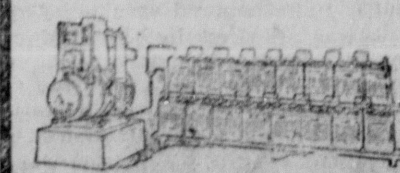

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

Save Sugar, Children!

A Penny here means a Bun Over there

A penny stick of candy or a lollipop in America is a bun in Belgium and France. Those are the countries where there are hungry children who need buns worse than you need candy. And if every little American in every state in the Union would not spend that daily penny for candy ANY DAY, buns with sugar on them, could be given to the hungry children over across the sea, and they would become fat, and healthy and happy like yourself.

Now that sounds like magic, and magic it is—white magic, of the very finest kind. As magic is quite difficult to understand, you will have to read every word of what follows in order to see how the trick is done.

You see, the story of how an American lollipop can turn into a Belgian bun—just like that—is very much like the story that ends with "dog won't bite pig, pig won't jump over stile, and I can't get home tonight!"

Let's pretend that we have come to the nice part at the end, where the pig finally jumps over the stile and the old lady gets home, all because the cat, way off yonder, began to eat the rat. In this story it's the little Americans, who begin to save on lollipops, and the bun that finally

land safe in the hands of the boys and girls over there. Here's the way it goes:

If American children say NO to that lollipop that they used to eat every day, the man who makes the lollipop out of sugar will tell the man who sells the sugar that he doesn't need so much next time; the man who sells the sugar will tell the man who brings the sugar from other countries in ships, that he needn't bother to load up so much sugar next trip; the man who brings the sugar from foreign countries will soon find that he doesn't need so many ships, and then he'll say to Uncle Sam, "Here's a ship you DO need and I don't need."

And Uncle Sam will take that ship, and fill it with wheat, and perhaps some sugar, and one thing and another, and send it over to Europe WITH war ships, and destroyers, to protect it, and he first thing you know, sugar coats buns, made out of American wheat, will be disappearing into the mouths of little French and Belgian refugees—

All because YOU little Americans said "NONE TODAY" to the lollipops and candy, and started white magic that reached across the Atlantic ocean!

CHARGED WITH CONSPIRACY

Food Administration Employee and Two Others Held.

Washington, Oct. 1.—Bernard S. Welsberg, an employee of the Food Administration and Martha Embury and Edward L. Wittmeyer were held by United States Commissioner Richardson for action of the federal grand jury on a warrant charging them with conspiracy to defraud the government.

OPponents OF WAR SEEK FOR SPOILS

THEY SEEM BLIND TO IMMENSE BENEFITS THAT WILL ACCRUE TO UNITED STATES.

GREATEST IS NOT MATERIAL

Congressman Sherwood Compares Soldiers of Civil War With Those of Today—Senator Lodge as Leader Can Assist the President.

By ARTHUR W. DUNN.
Washington.—"What are we going to get out of it?" is a question which opponents of our participation in the war have asked. In one form or another the same question has been asked by those who give but lukewarm support to the war since we have become such a vital part of it. If these persons could see something in the way of indemnity, added territory, or something in the way of spoils, they would be better satisfied. But they cannot understand just what the United States has to gain by participation in the war.

They do not understand that this much we will gain: That the United States will establish beyond future question the right of its citizens to go anywhere upon any peaceful ship of commerce without danger to their lives by lurking submarines; that American ships, as long as we are a neutral nation, can sail the seas without fear of being ruthlessly attacked and destroyed; that our peace shall no longer be menaced by any bullying European nation; that our Monroe doctrine will remain secure and not be endangered by the Germans seeking expansion.

But more than all else our people will forever feel the blessed satisfaction of having taken a prominent part in the war for world civilization.

Congressman Sherwood of Ohio talked about the soldiers of the Civil war one day in the house. He spoke of soldiers who served with him in several of the fiercest battles of that conflict. "They were boys sixteen, seventeen, eighteen and nineteen years old," he said, "and although I was twenty-six when I went into the service, those who still survive are older in life than I am. Every one of them is entitled to a pension."

"I am proud of our gallant young soldiers on the battlefields of Europe," said General Sherwood, "and I hope and pray that they will not, like the boys of 1861 to 1865, have to wait half a century before they receive the benefactions of a nation's gratitude."

General Sherwood need have no fear on that score. There will probably be about 5,000,000 surviving soldiers of the war who will return to this country. They will be the power of the future. No political party will refuse them anything. They will belong to every section of the country, not to a part of it as after the Civil war. There has always been a sectional element in this country opposed to pensions. That will not be the case when it comes to pensions for men of the great war. Every section will be interested in the very important soldier vote.

Henry Cabot Lodge is a leader who leads not only in politics but on the floor of the senate and in the debates. Several times since the Republicans chose him as their leader he has come to the front, and on two occasions with ringing speeches on the subject of negotiated peace which have been very inspiring. Lodge took an advanced position on our war aims and warmly supported the president's curt reply to Austria. It may be that the past personal differences between Lodge and the president will be dropped and if so Lodge will be of great value to the president in handling the complex problems that will come up during the war and become of vast consequence immediately after the war ends.

An ingenious device for signaling German submarines off the Atlantic coast was recently discovered. At one of the seaside resorts there are miles of electric lights along the board walk. It seems that a section of these lights for a distance of 200 yards was apparently out of repair. This whole section would go out, blink and blink, flutter and flutter, and after a time burn as before. But it seemed to an observer who knew something about telegraphy that there was in this blinking a little too much system for an ordinary electric light disturbance. There was a series of dots, dashes and pauses, which indicated letters and spaces between words. Of course the message, if such it was, could not be deciphered for it was evident that a code was used. It goes to show that there are no devices or tricks to which the German spies in this country will not resort.

Congressman Fairfield of Indiana noted this to say in a recent speech about partisanship at this time and how early is entered the present campaign: "The honored speaker of this house was called on the 14th of May to address a Democratic meeting in my own district, which was advertised to be the opening of the congressional campaign. That was six months before the election. It was perfectly right for him to go there. It was perfectly right for him to enter that campaign at that time; but oh, the phariseism, the hypocrisy of saying, 'No politics,' when politics was being worked every minute of the day."

IMMENSE RESULTS DESPITE MISTAKES

THINGS ACCOMPLISHED BY OUR NATION IN THE WAR HAVE BEEN WONDERFUL.

THEY SAVED THE SITUATION

Rainey Scores Opponents of Proposition to Tax Salaries of State and Municipal Officers—Fordney Alone as High Protectionist.

By ARTHUR W. DUNN.
Washington.—Men who are managing the war point out that, no matter what setbacks have occurred and despite mistakes that have been made, the United States has already accomplished wonderful results. Most important of all is that this country has saved the situation for the allies. Our people do not make any such claims, but it is a fact just the same. The allies were heartened first and then saved by the billions of dollars which this government loaned them. Then there was the other opportune moment when our brave soldiers went into battle and turned defeat into victory.

Washington officials do not discuss these subjects for the purpose of bragging, but they do think the people of the country should realize that the government is making good and that our part in the war work is progressing satisfactorily.

Constitutional objections were raised to the proposition to tax the salaries of state and municipal officers. The debate finally aroused Congressman Henry T. Rainey of Illinois, second member of the ways and means committee, who, in a short speech, roasted the opponents of the proposed tax. In the course of his remarks Rainey said: "The real fight for the Constitution of the United States is being carried on today along the old Hindenburg line in northern France. I have little sympathy with these hair-splitting discussions as to questions of constitutionality on this floor when the nation's life is in peril. It is a serious matter for a citizen of the United States to stand upon his constitutional rights and say: 'I am mayor of a city. I draw a salary of \$15,000 a year, or I am the treasurer of a state, and my salary and my commissions amount, perhaps, to \$50,000 a year.' I understand there are even officials of some of our great cities who draw much higher salaries than this, and are they to say: 'You cannot destroy my city by taxing its officers? You have no right to destroy my city by taxing its officers? Great God, who is trying to destroy any city or any state by imposing these taxes?'"

Rainey said he would like to see the official that would dare stand up and say the government could not at such a time as this take a part of his salary as it takes the incomes of other citizens to meet the huge war expenses.

Joe Fordney of Michigan is the last of his kind. When Senator Gallinger died Fordney was left without an associate in congress in one line—high protection. Joe Fordney is the kind of a protectionist that would place a good stiff protective tariff on every article of manufacture or produce which could be made or raised in this country, and then he would boost the rates 20 to 25 per cent in order to make sure that the duty was high enough. Fordney has kept steadily in mind the prosperous times of this country under the Dingley law and believes that a tariff along the same lines now would be good for the industries and bring money into the treasury. He is a loyal supporter of all war measures. As the ranking Republican member of the ways and means committee he has helped on every tax measure presented. At the same time he believes that these tax measures could be improved by a higher duty on foreign imports.

The absence of James Hamilton Lewis has been felt keenly during these stirring times, for there was no one who seemed to be able to speak with authority for the administration upon the several important topics which arose during the protracted absence of the Illinois senator. On several occasions, particularly those relating to foreign complications and the war, Senator Lewis made speeches in the senate which were listened to and read with interest, for it was known that he was speaking with some authority, from an administration standpoint. A short time before Senator Lewis left for Europe he warned the country against accepting any peace offers, asserting that their purpose was evidently to divide and weaken the forces allied against Germany.

The time was when no diplomatic note was made public until after it had actually been placed in the hands of the official of the government designated to receive it. But we have advanced matters in these days. The Austrian peace note appeared in the newspapers hours before our government received it. And Secretary Lansing said, when making public our government's reply: "This is what we shall say to Austria." Perhaps this war may put a lot of diplomatic humbug away forever.

Poland has lost 2,500,000 population through the war.

POTATO GROWERS AROUSED

Resent Official Order Calling for Grading of Tubers.
 Fargo, N. D., Oct. 1. — Red River Valley potato growers are up in arms over the federal food administration order requiring grading of potatoes before they are marketed. Under the regulations, potatoes that go through screens of specified size are held unmarketable.

Several meetings of potato growers have been called for the purpose of considering the situation, and placing before the food administration the seriousness of the situation.

"Back Home Again in Minnesota"

Minnesota soldiers who are so bravely going forth to make the world safe for Democracy—singing as they go—are proud of their own home state.

They will do their part as loyal Americans and proud Gophers. Uncle Sam can count on the boys at the Front. They will always be ready and willing to do their full share—but, how about those of us behind? Are we backing up the boys in the trenches?

There are many ways by which we can daily prove our loyalty—one of the best is by putting up our money.

Minnesota's statewide W. S. S. Pledge Week campaign begins June 6th. Let's do our duty by the boys from this state at the front.

Pledge War Savings Stamp Purchases for the Year

When we buy W. S. S. we are not giving our money. No indeed, Uncle Sam is merely asking us to loan our money. In W. S. S. the government offers the best investment in the history of the United States—four per cent compounded quarterly.

War Savings Stamps are the answer of a great republic to the demand for a democratic form of Government security. They are the bonds of the people—bonds that all of us can buy. They have behind them the entire resources of the Government of the United States. They steadily increase in value from the date of purchase until the date of maturity—and this increase is guaranteed by the Government. These stamps are issued in two forms—25 cent stamps and \$5.00 stamps.

Buy Thrift Stamps at 25 cents each and War Savings Stamps every month in the year.
